DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/21/2007 has been entered.

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

In regard to independent Claims 1, 10 & 11

Tengler et al. teaches a brake interlock for a display device mounted in the dashboard of a vehicle incorporating a switch formed within a display compartment (See figure 3) which is activated dependant on the position of the display. Park et al. teaches mounting a display for a vehicle in the rear of a seat (See Figure 1) however there is a lack of motivation to combine the display device of Park et al. with the brake interlock taught by Tengler et al. therefore, the claims are allowable wherein a brake interlock including a switch which is formed in a display compartment mounted on a seat wherein

a release signal is generated when the display device is installed in the compartment is claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
